

CENTRON TECHNICS

Centron Technics will install a power back up for you so you can say goodbye to inconvenience caused by power cut for good!

BENEFITS OF CENTRON TECHNICS

- Keep your refrigerator and freezer running during power cuts to keep food from going bad
- Keep your family safe by keeping your security lights and fence on.
- Continue with zoom meetings, laptop and phones charging.
- Continue watching TV
- Have light for your children homework.

Introducing our new line of eco-friendly solar-powered solutions! These innovative solutions use the power of the sun to keep you connected and powered up all day long. Working from home and electricity is not reliable? worry not, our products are the perfect companion to keep you powered up and connected no matter the season of the year.

Homes, offices, Hospitals, Clinics, Schools, Data centres and other commercial centres
